

shivashish bhaskar

React Developer | MERN Stack Developer

I am a React Developer specializing in web technologies, libraries and frameworks such as Bootstrap, Gatsby, Next.js, Node.js, Express, MongoDB, Mongoose, REST APIs, GraphQL, etc. I am passionate about creating user-friendly and visually appealing web applications that meet client needs. With a keen eye for detail and a commitment to excellence, I strive to produce high-quality work that exceeds industry standards. Whether collaborating with a team or working independently, I approach every project with a positive attitude and a determination to deliver results that impress. I am always eager to learn and explore new technologies and techniques to enhance my skillset and stay ahead of the curve in this dynamic field.

Business Life-Cycle Management

Achievements/Tasks

- Worked on modern React frameworks such as Next.js and Gatsby, as well as rendering techniques like Server-Side Rendering (SSR), Static Site Generation (SSG), and Client-Side Rendering (CSR).
- Expertise in using GraphQL data layers to manage complex data structures and relationships, resulting in faster and more responsive web applications.
- Capable of implementing serverless functions to offload compute-intensive tasks to the cloud, resulting in a more scalable architecture that can handle large volumes of user requests or data processing.
- Capable of implementing serverless functions to offload compute-intensive tasks to the cloud, resulting in a more scalable architecture that can handle large volumes of user requests or data processing.
- Skilled in optimizing image loading times and using code splitting to break up large codebases into smaller, more manageable pieces. Experience in using deferred loading techniques to significantly reduce page load times and improve the overall user experience.
- Experienced in collaborating with cross-functional teams, including designers, product managers, and other developers, to deliver projects on time and within budget.

SKILLS

JavaScript

ReactJS

Node.js

MongoDB

Gatsby.js

Next.js

CSS

Bootstrap

Express.js

HTML

PERSONAL PROJECTS

Srichakra website (Gatsby App with serverless backend)

- srichakra.vercel.app

Hotel Booking Web Application (Express App)
